Summary

Innovative and results-driven Flutter Developer with over years of hands-on experience in developing high-quality mobile applications. Proficient in Flutter, Dart, REST APIs, and Firebase. Integrated backend services and managed SDKs effectively. Passionate about creating user-centric applications and delivering exceptional software solutions. Adept at collaborating with cross-functional teams to achieve project goals and enhance user experiences.

Education

Bachelor's Of Software Engineering, Sir Syed CASE Institute Of Technology, Islamabad Sept 2020 – June 2024

Work Experience

Flutter Developer, MegaTechAI Solutions – Islamabad, Pakistan Feb 2024 – Mar 2025
Contact: Umer Farooq, CEO, +92 343 9805206

- Created an alert app with customizable reminders
- Built the SchoolMentor LMS platform

Junior Flutter Developer, ZatNav Pvt. (Ltd.) – Islamabad, Pakistan Jul 2023 – Jan 2024
Contact: Ilyas Madni, Senior Developer, +92 333 6123931

- Gained expertise in Flutter development
- Integrated Firebase for back-end services
- Worked extensively with REST API's

Flutter Developer, Freelancer – Islamabad, Pakistan Dec 2022 – June 2023

- Developed an online mobile selling app
- Utilized Firebase as the primary database
- Managed various SDK integration

Skills

Programming: Python, Dart (Flutter), C++
AI/ML Frameworks: TensorFlow, OpenCV
Technologies: REST APIs, Firebase, CNNs, Computer Vision
Tools: Git, Jupyter, Google Colab, VS Code
Databases: Firebase, SQLite

Final Year Project

Voice-Craft (Flutter + AI)

- **Lip Reading using CNN:** Achieved 93% accuracy in predicting spoken words from video frames using deep learning techniques.
- **Voice Detection Algorithms:** Built and trained models to accurately detect and classify human speech signals.
- **Flutter Integration:** Developed a mobile interface to display results from AI models for real-time interaction.

Personal Projects

Smart OCR Text Scanner (Flutter + AI)

- **Image-to-Text Extraction:** Developed a Flutter app that captures images via camera or gallery and extracts text using Optical Character Recognition (OCR) with Google's ML Kit.
- **Live Camera Text Detection:** Implemented real-time text recognition using the device camera stream.
- **PDF Export:** Automatically generates and saves a PDF of the extracted text using the 'pdf' and 'printing' packages in Flutter.
- **Clean UI/UX:** Built with a focus on usability, featuring dynamic previews, smooth animations, and error

handling for image and text processing.

Organizations

Flutter Developer,MegaTechAI Solutions
Junior Flutter Developer, ZatNav Pvt. (Ltd.)

Jan 2024 – Mar 2025
June 2023 – Dec 2023

Certificates

Cloud Computing, NUTECH

2019 – 2020

Languages

English: Professional Working Proficiency
Urdu: Full Professional Proficiency

Interests

Passionate about App Development, Machine Learning, and Robotics, Deep Learning, Computer Vision, Natural Language Processing.
